

Odyssea™

The New Standard in Cloud Design, Configuration and Commissioning

Odyssea™ is our new collaborative design approach for Oracle Cloud and ServiceNow technology implementations placing the emphasis on adoption, personalisation and experience over customisation.

Our knowledge and delivery expertise has enabled us to create a comprehensive, complete 3 step implementation approach to help clients achieve a faster time to go live and value with reduced risk.

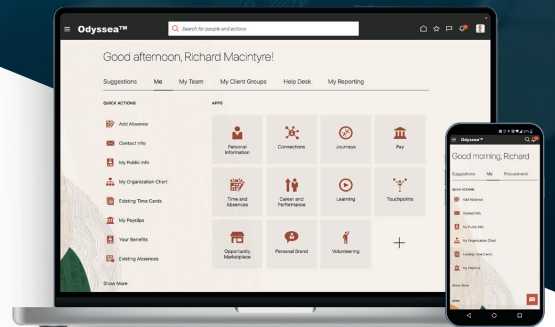

-  **LEARN**
Experiencing the solution
-  **VERIFY**
Validating the experience
-  **USE**
Living the experience

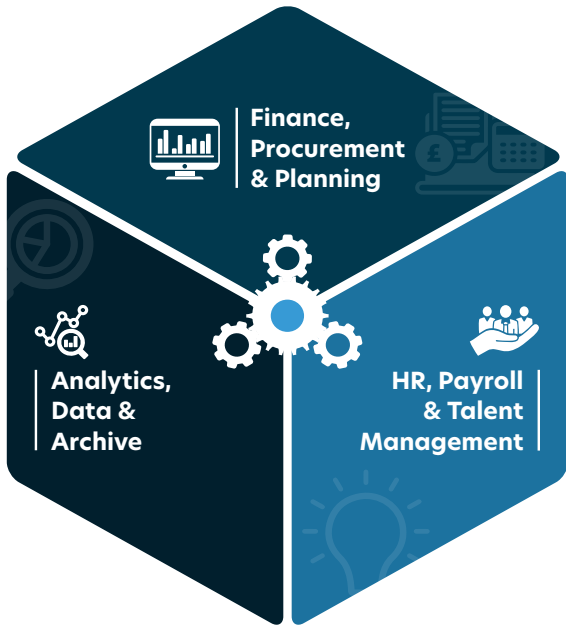

Odyssea™ provides clients with:

- ✓ A working Oracle Cloud solution from day one
- ✓ A blueprint for modern finance and HR related processes
- ✓ Expert guidance and leading practice cloud innovation
- ✓ Continuing aftercare and support with Value as a Service™

Where will Odyssea™ take you?

Odyssea™ brings a new approach to Oracle Cloud commissioning and go-live benefiting multiple stakeholders

Executive Leaders:

"Saving time and money not reinventing the wheel, we focus on our own unique needs"

Head of Cloud Systems:

"Bringing us leading practice and regular cloud innovation for our continued success"

Business Operations:

"Focusing on our unique needs and the user experience over standard process"

Rapid

Fixed timescale with a predictable, fixed cost

Blueprint driven design for a faster time to value with less risk

Meaning reduced effort and resources to commission and go-live

Complete

For unified cloud user journeys across the organisation

Leveraging the best of Oracle Cloud and ServiceNow technology innovation

Accompanied by Data Insights and Value as a Service™ for total delivery

Unique

Emphasis on personalised experience over standard process

Focusing on the specific needs of the organisation and outcomes

Learning, verifying and delivering cloud value for all
